

CLICK-TO-CHAT

TURN LEADS INTO CLIENTS

WHY CLICK-TO-CHAT

OVC Chat Box makes it easy to connect with any website visitor, converting them into qualified sales leads for easy follow up by your firm.

HOW IT WORKS

The chat box drops down onto a web page while a visitor is viewing the site. If the viewer clicks yes, the chat rep engages the viewer with questions, captures their information and establishes them as a qualified lead. Simply follow up on the lead in a timely manner to convert the inquiry into a paying client.

MOBILE TEXT

The SMS text message feature is a visitor-friendly way to initiate a chat with a mobile viewer. While visiting your web page via their phone, a potential client can click on the "Text Us!" box, initiating a text chat for easy use on the go.

PAY PER LEAD

Only pay for qualified chat leads that pertain to your business. Spam and irrelevant leads are not billable.
